DL

“ *We are so sorry to hear about Corey. We are keeping all of you in our thoughts and prayers. We definitely know what you are going through. If you need anything please let us know & those are not just idle words. We have known each other a long time & we will help any way we can. One memory I can share was Helen & I being pregnant with Corey & Michael & sitting in the doctor 's office waiting for Dr. Kernan on maternity day! We had plenty of time to talk that's for sure! We will be remembering you in the days ahead because when you lose a child it is the hardest thing in the world to deal with & as with us the love & support of friends & family means so much so let people help you to cope with this & if course depend on God as they told us God doesn't give you more than you can handle although this is way up there. We love your family & will help in any way.*
