“ Pop was my first best friend. I never really noticed that alot of things that I do I do because of him and I absolutely am amazed by that. He would always be at the table helping Grandma with all the meal prep and now I do the same thing. I do all my food prep at the table with the same set up my freshly sharpened big knife, my wooden cutting board, and my 2 bowls. Pop's love language was food and my love language is food. I remember always rushing home after school to fed the chickens for Pop so that when he got home from work we could sit at the table and have our long conversations him with his spanglish and me with my never ending stories. He always had patience and unfortunately that I didn't get. But I did also get being the person behind the scenes making sure all the small things where getting done to make everyone's life easier and that is definitely what Pop was for everyone he let everyone else shine. There is tons of stories and memories I have of Pop and I will always cherish them. Rest high up there Pop I love you and I miss you so much.

“ I’ve always been so proud to be a lefty because I knew I got it from Pop. He was always so kind hearted to me. The little “guera” growing up in his house. I remember always complaining to grandma that I was full at dinner time and grandpa would tell me “come here mija” Then he would poke around my belly a few times and once he found the perfect spot he would say “Right Here! You can fit one more bite, Right Here!” It’s a parent trick I use now with my own “wild animals”. Me and my siblings were a rambunctious bunch, always running through their tomato plant forest and scaring all the roosters, but Pop always had the patients and love we needed. I will forever be grateful for all he did for us. Your love and guidance will forever be cherished! Rest Easy Pop!

“ My pop n mom always refered me as their boy. That's a Texas thing. When he was in icu after open heart surgery my mom told the on duty nurse, " my boy wants to see his pop" I walked in an they saw a 6ft 300 lb grey haired 57 year old walking in. They probably said, " if that's a boy, I hate to see what they call a man!"
Love you pop. Yo boy Eliseo. Your first born and only love child you an mom had
