Danny Cannon, 67, passed away at his home in Visalia, CA on December 18th, 2022 due to heart complications. He was born on November 28, 1955, in Riverside, CA. Danny worked for Lockheed Martin in various positions, and lastly held the position of Material Specialist, before retiring after 33 years. Danny loved to travel around the world, taking long drives, getting together with the bike club friends for breakfast meet-ups, and long rides on his Goldwing motorcycle. He loved making Puerto Rican pasteles with the family, eating Mexican food, and piddling in the garage and on projects around the house. “ Danny and I worked together for a while. He was funny 😄 and fun to work with. I was sorry 😞 to see him leave. But he was determined so he left. Good thing too because he would not be happy working at Lockheed now. I too have left Lockheed as have a lot of my friends and co workers. We have also lost a lot of friends and co workers due to deaths. Danny rest in love, peace and happiness.

The first time I met Danny he was reading his bible, the last time I saw Danny he had created an area in his closet where he read his bible. He loved the Lord then he loved my dear friend, Virginia. They worked well together and were such a cute couple . Danny loved his children and shared memories of things they did together. His Danielle bakes well and he would brag about her baking. Danny was fun to be around, always pleasant and inviting. He and my husband installed a cabinet and Danny finished the project by building and installing the sink. We cheered him on. I know as much as he loved everyone. When he heard that call to come home, he didn't look back and in a blink of an eye he was gone. We will truly miss him but he lives on in the hearts of those who love him. ❤️

“ I met Danny in the 70's in Riverside CA. He was “Always“ such a pleasure to be around. He loved his motorcycle and his Grand Prix. I will never forget the fun we both enjoyed sitting around and talking about our common friends.

Please accept my heart felt condolences. Danny was true friend and a very gentle guy. From all of the brothers and sisters that knew him in Riverside:

Rest in Peace Danny. You will be truly missed but not forgotten.

“ Danny wasn't someone I knew very well. I know that he and my Aunt Virginia were happily married. The few moments that I did get to spend with Danny were pleasant. He brimmed with a positive energy and was easy to talk to. Most recently, he enthusiastically encouraged me to pursue a career with Lockheed Martin. He passionately spoke of his time working for the Aerospace giant. While I no longer work for the company, I did have a good feeling, that I would have something to share something with my Uncle. Another avenue we definitely could have used to bond with in the future. His passing wounds me as I will not be able to trade stories with him about our time working for Lockheed Martin. Wounds me that I won't get to know the man my Aunt loves. But, what I can do, is be here in the present for those left behind. For my Aunt, and his family. I do not believe I have met those from Danny's side but I would welcome the opportunity to learn more of him. And even though we not know each other, please know that I am here for you in this time of mourning.

Sorry to hear of your loss. i worked with Danny for many years at Lockheed. i was young when i first met him (mid 20's) and asked him for advise and he was happy to share his thoughts. he was a great guy, at lunch we would play dominoes. he was so nice and always neat to talk to about life or just the weather. may god bless you and be with you all in your time of need.
