“ Danny was a good friend of mine for over 15 years, he was one of a kind. I'm really gonna miss all the jokes, and being called his dark chocolate 😞 Danny and I both worked out of town and I will call him to talk to stay awake while driving, I call him Wednesday and he didn't answer which he always answers my 4 o'clock am phone calls. Danny you are truly gonna be missed, there's not a day that I don't think about you. Every time I'm driving home from work I pass manning it brings me to tears 😞 Love and miss you my friend. RIP my fluffy teddy bear

“ It was so nice working with Danny, he was a quiet, diligent health worker who took his job seriously, never complaining, never asking help, never showing frustration even on tough days like "crazy Mondays." I always thought he took stress gracefully because in spite of the tough tasks ahead to accomplish on every patient, he could still make a short but comprehensive documentation while monitoring his patient's, He could also lighten up & share jokes during our downtimes & breaks. This is the funny, lovable Papa Bear we so love. I didn't realize what kind of sacrifice he had going to & from work, but in spite of, I probably would still insist he keeps coming to work because he is one dedicated & committed health worker we would sorely miss. May you rest in peace.
