

## Dorothy Mae Shook

August 22, 1932 - May 4, 2019

Dorothy was born Dorothy May Donaldson on August 22, 1932 to Harry and Ethel Donaldson in Visalia, California. She entered her eternal home on May 4, 2019 at the age of 86, to meet up with her eldest son Danny, his son, Kevin King, her parents and siblings as they walk together on streets of gold with Jesus. Dorothy is survived by her baby sister, Loretta Finney of Missouri and many nieces and nephews.

Dorothy's legacy is her love for God and her kids, Danny Freeland, who passed away in 1990, Peggy Cochran (husband Leo), Terry Freeland, Brenda Fernandes (husband Randy) and Mark Shook (wife Judy) all of Visalia, California. She also left behind her beloved grandchildren and great grandchildren, all of whom loved her dearly.

Mom was diagnosed with Alzheimer's in 2005; as we watched her lifelong memories slowly slip away, she never forgot who we were. This was a prayer we had all prayed individually, unknowingly, and God answered so abundantly. Anyone who knew Mom, knew she was just downright ornery. She loved to laugh at the silliest things and sing silly songs really loud; often bellowing out breaking any peaceful silence. When it came to playing games, she was competitive to the point of cheating (if she got away with it). One thing Mom always said was, "I was gonna" and we would tell her, that's what "we was gonna" put on her headstone. Well, Mom your love for Jesus is what "was gonna" take you peacefully home, and it finally has. Welcome home Mom. We love you dearly and you are already missed so much, your absence has

left an enormous hole in our family. As you relish in your heavenly family reunion, we will look forward to joining you one day. Until we meet again, and we will because you taught us all to love God as faithfully as you did. Condolences can be made to [www.salseranddillard.com](http://www.salseranddillard.com)
