“ Jeff and my brother Brian grew up and were best friends for as long as I remember...the boys were always experiencing different things that might be considered a little risky. Although they shared many happy memories and found many ways to do things, others might not!! Never a dull moment with these two when they were together. Not sure that all my memories were happy with these guys but they always found a way to keep each other amused. I know my mother has many great and exciting memories of the two of their adventures. He will always be a part of our memories and stay with us in our thoughts and prayers. Rest Jeff. I pray that all of us who loved you will keep you in our hearts and keep your memories alive through stories that we'll share with others.. You will be missed...Praying for all of you who knew and loved him, that God will help you heal!!

“ Jeff & I grew up together. We played cops & robbers, rode our bikes, played in the dirt with trucks and went to school together. I have to share that my husband Henry chased Jeff off one day & threw rocks at him for coming over to play. 😭 I will always remember Jeff's laugh, May he Rest In Peace. May the lord bring peace to all of you.
