“ I was extremely blessed to have known Julie as a co-worker at a local hospital. We worked together in the Emergency Department for several years. I was always so thankful when I knew she would be on my shift. Julie was the epitome of the best of all nursing traits. She exuded compassion and kindness for not only her patients but everyone else on the unit. I loved her calm demeanor and insight into all around her. She made a lasting impression on me and will forever be thankful I was able to know her, even though it was such a brief moment in time. May her family and friends find peace with their loss.

“ Julie and I shared a birthday. I always made sure to send her birthday wishes every year. Our kids went to school together, did gymnastics together and then played volleyball together. She even drove my kids to gymnastics when we couldn't. Your kindness did not go unnoticed. Condolences and prayers from the Andradas.

“ I only have one memory. We chatted because I shared with you that we were long lost cousins. You were always kind. Rest easy 💙
