“ Steve and I were close growing up only 15 months apart. I have so many memories of our family doing so many fun things, camping, trips to North Dakota, riding bikes that we got on Christmas morning and much more. Steve was my older brother and protector and yet he liked to tease me as older brothers did to their sisters at times. I dated some of his friends but he kept a watch. Mom even made me find him a date to come with me on a date with Dean back in the summer of 1967. He became good friends with Dean over the years. After we grew up we never lived close to each other but tried to stay in touch. I cherish the conversations we had in the last few years of his life. I know he is with Jesus and his suffering is over. I love you dear brother and Mom sends her love as well. You will be with our dear father now. You missed him so much. Love, Your Mom, Your Sister Karen & Brother in Law Dean.
